THE PRIMARY ELECTION

The Argus is highly pleased with the result of last Friday's primary election. Our pleasure is the greater because the voters did as The Argus had advised them to do.

We called attention to the fact, in a previous issue, that all the candidates had been sent a letter, asking where they stood on the segregation question. This letter was sent out by the local branch of The National Association for the Advancement of Colored People. In our last issue, we published the names of those safe candidates for us to vote for, and we recommended that the Negro vote accordingly.

The result of the election showed that our advice was followed. Great thanks are due the organization above mentioned for its splendid services and its foresight and vigilance in the matter. Praise is likewise due our voters for once holding together and voting in the interest of the race and not for individual interests. It shows what we frequently argue, that the Negro, united, holds the balance of power.

Now let us profit by this experience. Whenever a danger threatens us, we need only to present a united front, when few, if any, dangers will be able to stand against us.

No stronger argument can be presented in favor of the St. Louis branch of the National Association for the Advancement of Colored People than this work prior to the primary election. An obligation rests upon our citizenship to hear and heed the call being made this week for many new members.

Let us make this a great organization—numerically and influentially. Become a member.

OUR BAND BOYS

Next Sunday will be the last of the series of band concerts of the season at Pythian Hall. We feel that a word of encouragement and commendation is due these capable organizations. We feel, too, that our people should be proud of the bands as well as be congratulated upon so valuable an accession to our civic life.

Foremost among the features is the training it gives the boys themselves. We refer not alone to the musical training, though the cultivation of any art is an important factor in civilization and refinement. But we have in mind also the training in discipline and deportment.

All boys stand in need of these things; but more particularly, our boys. Other boys have the prestige and development of their entire race behind them. Our boys have little or nothing behind them. Their parents had few opportunities, limited education and no encouragement. In not many cases are the parents able to give the training our boys need in discipline and deportment; they never had it themselves.

Another noticeable feature is the self-confidence which these boys are developing. Their concerts have been made more interesting by the solo work and other individual contributions to the program by young people—all of which would be a credit to much older and more experienced talent.

We would like to see a large and representative audience greet them at their closing concert next Sunday. We would like to see parents generally, interested and appreciative enough to seek to get their boys into these bands. We would like to see the public at large give these young musicians the moral and financial support they deserve.

NATIONAL HEALTH WEEK

The National Negro Business League has sent out a call, signed by President Washington, for the observance of "Health Week," beginning with Sunday the 21st.

It is expected that every pastor of a colored church in America will read the call to his congregation and urge upon his people the observance of the suggestions offered by the National Committee.

We hope that no pastor in St. Louis will fail to perform this sacred obligation. Sacred? Certainly! For if there is any one thing God Almighty requires of His children, it is health. "What! Know ye not that your body is the temple of the Holy Ghost?" "Present your bodies a living sacrifice, wholly acceptable unto God, which is your reasonable service."

Indeed, it is made an absolute condition of entrance into heaven. Who shall ascend into the hill of the Lord, or who shall stand in His holy place? He that hath clean hands and a pure heart. Cleanliness is not only next to, but equal with, godliness. And cleanliness can only result from observing the fundamental laws of health.

Most of us realize the importance of personal cleanliness—clean clothes and clean bodies. But equally important are our surroundings. People are largely the product of their environment.

INFORMATION WANTED

Mr. Jerome Calloway, formerly second baseman Buffalo, N. Y. Royals: If you will send your address to your late manager at Fort Stanley, Ontario, Can., you will learn something to your advantage.

ment. Those who live in the midst of dirt will be dirty—physically, or morally—or both. Adversely, those whose surroundings are clean will be clean, even though they may be poor. Poverty is no excuse for dirt or disease.

Hence the emphasis which the National Health Committee puts upon the cleaning up of our surroundings. Therefore, we supplement the call of the League, and urge every Negro resident to observe Health Week by a general cleaning up of person, of house, of grounds and of surroundings.

The result will be twofold: First, health. Every dust heap, every dirt pile is a breeder of disease; and of those particular types of disease which are peculiar to the Negro. Second, respect. No person, dirty or living amid dirt, can be self-respecting. And no person lacking in self-respect can command the respect of others.

Then, let us clean up. Not only will it bring us an epidemic of health; not only will it make us self-respecting; but it will command and win the respect of the white residents. And thus will be effectively answered their stock argument that neighborhoods run down and property depreciates with the invasion of Negro residents.

—So, down with dirt, the Tyrant! Up with King Health, rightful heir to the throne!

EASY WAY TO FILTER WATER

Simple and Comparatively Without
Cost—Excellent Lamp for the Slop-
pans—Tinned Brackets.

It often happens that pump water is
filled with sand or gritty substance,
and one must wait until it has settled
before it is fit to use. If this is the
case, as easy way to filter it is to take
a rather fine sponge, just large
enough to fit into the spout of the
pump. Attach a wire to the sponge,
so that when it is pushed up in the
spout it can easily be removed. When
the water runs through this sponge
it will come out clear, for the sand
will be collected by the sponge. Be
sure not to get the sponge too large,
or it will stop the flow of water. Take
the sponge out at least twice a week
and clean it thoroughly.

A small lamp can be made for the
slop-pans by taking a bottle such as
mudgale comes in and attaching to

If by a wire a short piece of brass or
copper tubing one-tenth of an inch
in diameter. A thick piece of cotton
cord makes the wick, and the chimney
is simply a tumbler with the bottom
cut out. These lamps are safe and
will burn without odor. Lamp oil will
be found a good substitute for kero-
sene and will be less apt to smoke.

Very serviceable brushes for a
towel roller can be made by using or-
dinary wire hooks, as shown in the
illustration. The roller is made of
wood—a better handle of wood—and
two nails with the heads knocked off
are inserted in the ends. These are
put through the opening in the ends
of the hooks, so that the roller can
rotate easily. When it is necessary
to change linens, spring the hooks
apart and slip out the roller.

HOUSEHOLD HINTS

It is a needless waste of fire to keep
a stove red hot all the time.

Rice with good chicken over it
makes a change as a luncheon dish.
Turpentine is said to restore the
lost whiteness of ivory handles of
cutlery.

Bordered or plastered walls make
an excellent background if stained a
good color.

Cream cheese and watercress will
make a delicious sandwich for the
lunch basket.

Sometimes merely bending new
kitchen table legs a hat make it look like a
new shape.

Charming footstool covers are made
of gray linen worked in colored cross-
stitch design.

No fruit salad is complete, without
a touch of color in the shape of a
maraschino cherry.

A good meat salad is made with
chopped cold meat and cold-boiled
potatoes, onion and parsley.

Bread and butter, cheese and beans,
puta and sugar, are among the best
foods for the hard worker.

It is said that all kinds of natural-
colored feathers can be washed in
lukewarm water and good white soap.

Hints for Good Cooks.

Salad dressing can be made of al-
most anything, but the best limitation
of the genuine can be manufactured by
taking two tablespoons of mayonnaise,
ging of anchovies, three tablespoons of
red wine oil and a finger of olive
oil.

There is always one way sure to tell
when an egg is bad. Boil it soft and
then open it with a common case knife
or a spoon. If it is bad you will not be
left long in doubt.

Peach Pie.

Lift pie plate with a rich pie crust
and fill with peaches, either canned or
fresh. Brewster as desired and bake
until nearly done. Then cover top
with dots of currant jelly, or any tart
fruit and bake. Beat whites of
two eggs stiff; stir in one-fourth cup
sugar; spread over pie and brown.

With Your Pepper Seeds.

When using green or red sweet pep-
pers save the seeds, which you find in
large numbers inside the shell. Dry
the seeds, and put them in a
wide-necked bottle. They are deli-
cious for giving zest to soups, gravies,
sauces, salad dressing and the like.

To Clean a Carpet Sweeper.

A very coarse scrubbing brush will
be found the best thing for removing
the bristles, hairs, etc., which are so
hard to get out of the brushes of a
carpet sweeper.

For Ter Stains.

Ter stains may be removed from
cotton fabrics by covering the spots
with butter and allowing it to remain
for a hour before washing.

Flannel Dish Cloths.

Try doing white spot laundry in
dish cloths. They are very durable
also softer for glass and fine china.
A 14-inch square is a good size.

EASY WAY TO FILTER WATER

Simple and Comparatively Without Cost—Excellent Lamp for the Kitchen—Towel Brackets.

It often happens that pump water is filled with sand or gritty substance, and one must wait until it has settled before it is fit to use. If this is the case, an easy way to filter it is to take a rather fine sponge, just large enough to fit into the spot of the pump. Attach a wire to the sponge, so that when it is pushed up in the spot it can easily be removed. When the water runs through this sponge it will come out clear, for the sand will be collected by the sponge. Be sure not to get the sponge too large, or it will stop the flow of water. Take the sponge out at least twice a week and clean it thoroughly.

A small lamp can be made for the kitchen by taking a bottle such as medicine comes in and attaching to

It by a wire a short piece of brass or copper tubing nine-eighths of an inch in diameter. A thick piece of cotton cord makes the wire, and the chimney is simply a tumbler with the bottom will burn without odor. Lead oil will be found a good substitute for kerosene and will be less apt to smoke. Very portable brackets for a roller can be made by using ordinary wire hooks, as shown in the illustration. The roller is made of two nails with the heads and ends are inserted in the ends. These are put through the opening in the ends of the books, so that the roller can revolve easily. When it is necessary to change towels, spring the books apart and allow out the roller.

HOUSEHOLD HINTS

It is a needless waste of fire to keep a stove red hot all the time. Rice with grated cheese over it makes a delicious sandwich for the Turpentine is said to restore the lost whiteness of ivory handles of cutlery.

Bordered or plastered walls make a good background for a stained glass picture.

Cream cheese and watercress will make a delicious sandwich for the lunch hour.

Sometimes merely bending new kinks into a hat make it look like a new shape.

Charming footstool covers are made of gray linen worked in colored cross-stitch design.

No fruit salad is complete without a touch of color in the shape of a maraschino cherry.

A good meat salad is made with chopped cold meat and cold boiled potatoes, onion and parsley.

Bread and butter, cheese and beans, nuts and sugar, are among the best foods for the hard worker.

It is said that all kinds of natural-colored feathers can be washed in lukewarm water and good white soap.

Hints for Good Cooks.
Salad dressing can be made of almost anything, but the best imitation of the genuine can be manufactured by taking two tablespoons of grapes, a pint of ammonia, three tablespoons of cod liver oil and a flager of axle grease.

There is always one way sure to tell when an egg is bad. Roll it soft and then open it with a common case knife or a spoon. If it is bad you will not be left long in doubt.

Patch Pie.
Line pie plate with a rich pie crust and fill with peaches, either canned or fresh. Sweeten as desired and bake until nearly done. Then cover top with dots of currant jelly, or any tart jelly and a dash of lemon juice.

With Your Pepper Shaker.
When using green or red sweet peppers save the seeds, which you find in large numbers inside the shell. Dry them on a plate and set them in a wire-meshed bottle. They are delicious for giving salt in soups, gravies, sauces, salad dressing and the like.

To Clean A Carpet Sweeper.
A very coarse scrubbing brush will be found the best thing for removing the greasy matter, which are so hard to get out of the brushes of a carpet sweeper.

For Tea Stains.
Tea stains may be removed from cotton fabrics by covering the spots with butter and allowing it to remain for a few hours before washing.

Planned Fish Cloth.
Try using white cotton flannel for fish cloths. These are very durable, also offer the glass and fish skins. A 14-inch square is a good size.

GIANTS WILL OPEN SEASON APRIL 18

Manager Charles Mills announces Sunday, April 18, as the opening day for the Giants 1915 base ball season here. All fandom will be served with a big surprise when it journeys out to the beautiful new park at 6100 North Broadway on that day. Nothing has been left undone in preparing one of the most complete parks in the country. The comfort of the patrons has been arranged to the minutest detail. Forty-one large, comfortable boxes, of four seats each, have been installed. Nine of these have already been reserved by the American Hotel Waiters for the opening game. On that day Former Umpire Robert L. Jones, head waiter at the American Hotel, will umpire one inning as a farewell to his baseball activity. On Monday night, April 19, a farewell banquet and reception will be tendered Mr. Jones at the Keystone Cafe.

Mr. Mills has gathered together a club of well-known stars that will be hard to beat, and the fans are sure of high class base ball. The complete line-up will probably be published next week. Chester Smith, who is attending to the advertising in the 'Ville, is rendering indispensable service and expects that section of the city to turn out en masse on Sunday, April 18.

BOOKER WASHINGTON

Booker Washington Theater patron are being served with a very classy show this week. The Arde Mathews Sextette, of two women and four men, open the bill with a repertoire of songs well arranged and rendered. Mr. Mathews presides at the piano opening with "Rachmanoff's Prelude." Tom Mills takes up "The Opera Rag," from one of the boxes and does well. He later presents "Garden of My Heart" from the stage. Miss Missouri Miller, in "Song of the South," and Miss Margaret Dore, in "The Crow-Dead Mo," assisted by Ed Heister from the audience, make decisive hits. Ben Horton sings a base solo with good effect. The entire company closes with a medley of choruses and are generously applauded.

The Blanks Sisters, Aracelia and Burlenna, keep up their classy standard with a collection of tuneful melodies. Both are excellent singers and make a good stage appearance. Their play is finished and delivered with a polish that classes them with the best of female performers. They are favorites with the B. W. patrons.

Tim and Heister Moore are presenting an altogether different act this week which shows the apparent unlimited versatility of this team. Their feature is a burlesque magic from which they get much comedy by exposing their mystic leas to the audience. They do considerable singing and dancing and go good with the crowds.

Tim and Heister Moore will remain over in St. Louis, and commencing week after next will put on a series of tabloids, assisted by Bowman and Burnette and other talent. Some amateur performers will be used and any young men of women willing to get engagements should report immediately to Mr. Turpin at the Booker Washington box office. No experience is necessary. Anyone with talent can be used.

The Argus man squeezed into the Booker Washington Wednesday night for the house was packed to the doors, hundreds standing. Every act was going big; but the Blanks Sisters almost stopped the show. They are immensely popular. Tim and Heister Moore had changed their act to one of their favorite comedies and were cleaning up. Mathews and his sextette were being lionized. Everybody was happy. Even the box office was in smiles. Charlie Turpin was too small for the big crowd and could not be found.

TESTIMONIALS:

Dear Madam:
I have a friend by the name of Mrs. Sarah Miller, and have been personally friendly to her for over three years, and during the time she wore a wig, I have been treating her hair for about two months, and now she has taken the wig off, and uses her own hair except a small piece in the back. This treatment is wonderful, I must say. Mrs. Emma B. W. of the Oxford College. I have tried everything for my hair and nothing did it any good, until I began using Major's Hair Oil, and I feel proud of my hair today, and feel more than able to speak for it anywhere and any time. I can truly say it is the real thing and does the work.

And I will say to all ladies, let us work hard, and use W. L. Major's face creams, hair oils and powder, and look good.

ASTRAL DEAD TRANCE SPIRIT MEDIUM

CONCERNING BUSINESS AFFAIRS.

He gives dates, facts and figures, reliable and important advice and information on all matters of interest in business transactions, law, suits, contested wills, life insurance, damage suits, divorces, death, mortgages, claims, collections, bankruptcies, advertisements, stocks and all financial difficulties. Truly predicts the success or failure of new inventions, patents, pending patent claims, etc.; tells whether you will receive fair dealing with partners. If you desire to know what business you shall follow to be successful, where you shall go and whom to avoid if you intend to make any changes or to start a business, buy or sell property, or, in fact, take any important action, call on W. L. Gladstone. His advice may be the means of saving you thousands of dollars and a great deal of trouble.

LOVE, COURTSHIP AND MARRIAGE.

If afraid of the heart or emotions or wish to know how to give the exact and truthful revelations of all love affairs, settle former quarrels, enable you to win the esteem and affection of anyone you desire, or speedily find a happy marriage; tell if the one you love is true or false; how to control and overcome love and discordant families; give taste and charm the one you love; also show you meet, and how to make a person at a distance think of you. Write at once.

NOTE—These calling for pastimes, cruelties and trifling persons are only wasting time calling on Prof. Gladstone.

Surprisingly fascinating are the words that come from the cultivated lips of this most interesting man whose journey of life has already been a long and eventful one.

He has been a student of the most renowned psychic schools of Egypt, India and Europe. It seems, indeed, as if his knowledge must come from that repository of all wisdom which is the human mind.

He looks far away into the dim mysteries of the future, the great beyond, from the dark chasm which separates the human body from the fitting vehicle that which is to be in the world. The explained are brought to light.

NOTE—Gladstone answers no letters. If you cannot call in person, do not write. As his time is fully occupied with his personal affairs.

either, love are made friends, lost property is recovered, the mist is brushed away from business ventures, the hand is so guided that failures are avoided, the earth's surface is explored, its treasures laid bare to the mysterious, perceptive mind, and while he gives names, dates, facts and figures, his visitor after dumfounded at the revelations he makes to him. He is surely a man of the passing time.

GLADSTONE is not a clairvoyant from choice, but because fate has so decreed. His answers were powerful mediums and have for ages handed down their wonderful power of gift from generation to generation. So he has received the rich inheritance together with the combined knowledge and priceless experience of generations. No matter what your present trouble may be or what your past experience has been, you will save time and avoid disappointment by at once consulting Gladstone.
